

# FRACKING AND MATERNAL HEALTH

## Resources and References

### Pending Legislation to Support

- [A.5424A/S.4263A](#)  
“Suspends the issuance of permits for drilling wells for natural gas extraction in certain areas.”
- [A.1685/S.673](#)  
“Prohibits the use of hydraulic fracturing in the extraction of oil and natural gas; prohibits acceptance, disposal and/or processing of any fluid used in a hydraulic fracturing process.”
- [S3333A](#)  
“Prohibits the use of waste from oil or natural gas extraction of storage on any highway.”
- [S.5412/A.7497](#)  
“Relates to prohibiting the acceptance of waste water from oil or natural gas extraction activities at wastewater treatment facilities and landfills.”
- [S.674/A.1046](#)  
“Relates to the uniform treatment of waste from the exploration, development, extraction, or production of crude oil or natural gas.”

### Additional Resources

#### New York State Department of Environmental Conservation Resources

The Center for Environmental Health (CEH) has a seventeen-year track record of protecting children and families from harmful chemicals in our air, water, food, and in dozens of everyday products. CEH also works with major industries and leaders in green business to promote healthier alternatives to toxic products and practices.
